People Owner Courtesies

We are a family campground that realize pets like to camp with their people. We welcome both here at Oak Park, however, pets you know your personality, if you are not good at being social, do not like to be on a leash or like to hear yourself bark, then please let your people camp without you.

Having said that, here are a few tips for you pets who know you are not aggressive and enjoy camping with your people.

- Please keep your people on a hand leash (6' max) at all times.
- If you poop be sure they scoop
- Do not let them leave you outside unattended.
- Be sure they take you inside the RV or tent with them at night.
- Be sure they do not take you into buildings, playground or pool area.
- We know there are lots of new sights and smells, but try to keeping the barking down, so that it does not disturb the neighbors.

Bring your family to camp with us and pick up your treat at check in.

See you soon!
